

Patent Attorney (m/w/d)

Technology specialist (including electrical engineering / IT / telecommunications / telecoms / robotics / physics)

About us

df-mp was founded in 2000 and is one of the leading IP firms in the German and European legal market. With over 100 staff and eight practices, we support renowned national and international clients in the acquisition, defence, and enforcement of IP rights.

We now have an exciting opportunity for exceptional qualified patent attorneys to join our Technology team.

I. Responsibilities:

You enjoy thinking strategically and are passionate about delivering a first-class service to our clients, including drafting, filing and prosecuting EPO and PCT applications as well as opposition, litigation, and invalidity proceedings.

Among other things, you will actively support our clients in handling complex patent applications, conducting examination proceedings and assisting on opposition, litigation and nullity proceedings before offices and courts, including the UPC. We are a growing firm with a culture centered around innovation, collaboration, accountability and respect. At df-mp you will find highly talented people who will support you in your personal growth.

II. Qualifications:

- You have passed the EQEs or are in the final stages of your office year training
- Excellent academics
- Ability to analyze and express complex technical and legal ideas clearly and concisely
- Excellent written and verbal communication skills in German and English
- Experience in drafting patent applications as well as analyze, report on and respond to Office Actions
- We encourage applicants who are personable, well prepared, embrace new developments with enthusiasm and a forward-thinking mindset

- The successful candidate will be a self-starter with strong attention to detail and strong commitment to their work, the ability to adapt to changing priorities and to work harmoniously in a team
-

III. Benefits:

- A variety of interesting work for major international companies
 - A crisis-proof workplace and an office located in the heart of Munich
 - Flexible work hours within our flexitime scheme
 - Possibility of remote work
 - Free public transport ticket
 - Ergonomic office furniture
 - 30 days paid leave, additional extra days for special occasions
 - Individual training and development opportunities
 - 10% discount in selected shops
 - Free sodas and fruit
-

IV. Sounds interesting?
